

LIBRARY RECOMMENDATION FORM

International Journal of Disability Management Research

To Librarian/Library Acquisition Committee

I highly recommend that the library purchase the *International Journal of Disability Management Research* and would be most grateful if you could consider this title and my recommendation in your next serials review. The journal publishes research findings in areas including prevention of injury and disability, occupational rehabilitation and employment of people with injury and disability. The journal aims to encourage and publish findings from studies conducted in a range of countries that focus on disability management interventions in the workplace. All articles are peer reviewed. It is published online-only two times per year and hosted on AtyponLink (formerly Extenza). All articles will contain abstracting and author metadata, and DOIs with CrossRef linking. No signed site licences required. Access via popular services such as Swets Online or EBSCOhost.
