

## Practical CBT: Using transdiagnostic case formulations and therapies based on problem-maintaining circles

Gary Bakker

Practising Clinical Psychologist

In 2008, clinical psychologist Gary Bakker introduced the problem-maintaining circle (PMC) model to the clinical application of CBT. Drawing on 40 years of clinical practice and research, learn how best to communicate the CBT approach to clients and get them to do their homework effectively. Select and apply evidence-based CBT therapies. Includes 72 Homework sheets, including verbatim scripts to help ensure clients get the best out of therapy and a downloadable PDF booklet of 33 client handouts.

## Healing Trauma in Children: A practical guide for foster and kinship carers

Sonia Kennedy

This book aims to help foster and kinship carers understand trauma and its impact on the vulnerable child they are caring for. It gives practical strategies for dealing with day-to-day care emergencies as well as more long-term solutions. It is not about medication; it's not about behaviour management plans, punishment, judgement, or diagnosis. It is about developing a carer's awareness, kindness, compassion, patience, strength, and education.

## Ethics and Accountability in Criminal Justice: Towards a Universal Standard - THIRD EDITION

Tim Prenzler

Sunshine Coast University

This book is designed to meet head on the urgent need for academics, advocates and policymakers to develop universal ethical standards in criminal justice practice. By using quality research and policy analysis focusing on the core components of the criminal justice system — police, courts and corrections— Professor Prenzler formulates a basic checklist that can be used to assess the ethical quality and accountability of the criminal justice system in any jurisdiction.

## **The Gifts of Compassion: How to understand and overcome suffering**

Stan Steindl

Psychology Consultants Pty Ltd

Through a clear series of steps and practices, noted clinical psychologist Dr Stan Steindl explains how compassion evolved as a vital part of our nature and thought, and the way we look after one another, and even ourselves. He then shows how to use our compassion as a key to a healthier mental life.

## Sex and Belonging: On the Psychology of Sexual Relationships

Tony Schneider

In this stunning new work, Tony Schneider, a practising clinical psychologist for over 30 years, outlines a new model of psychological drives around sexual behaviour. He describes a dual biological and subjective, multiple-drive profile, that energises and directs individual sexual behaviour. The book takes a middle path between the determinist thinking that frequently underpins scientific psychological research, and the psychodynamic theory often used by clinicians.

## Parenting Made Easy: The early years

Dr Anna Cohen

Kids & Co

The early years of parenting are often a tricky and challenging time — a time when you will watch your baby fade and a child emerge, a time of amazing growth, development and change. Your 'bag of tricks' to deal with these changes must take into account your child's development and cognitive abilities at any given stage. This book provides ideas for parenting that have worked for thousands of families to foster children's positive self-identity. The strategies advocated promote positive nurturing relationships while helping you to find effective solutions to the challenge of parenting the preschooler.

## **The Australian Workplace Barometer: Psychosocial safety climate and working conditions in Australia**

Edited by Maureen F. Dollard & Tessa S. Bailey

Asia Pacific Centre for Work Health and Safety,  
University of South Australia

Work related stress represents a huge cost for worker health and -productivity and is broadly regarded as an important social -determinant of global health. The Australian Workplace Barometer (AWB) project was developed in order to provide national benchmarks needed to develop best practice standards in the area of worker psychological health and wellbeing. It provides a step towards social action and work environments that will stimulate problem solving, creativity and innovation at work rather than despair through compromised health and wellbeing.

## The Anger Fallacy: Uncovering the Irrationality of the Angry Mindset

Steven Laurent and Ross G Menzies

Is anger really ever useful? And can we learn to overcome it? In this entertaining and ground-breaking book, two of Australia's leading clinical psychologists take a radical approach to anger management, exploding the irrational beliefs that fuel this noxious and misunderstood emotion. Through numerous examples from popular culture and the consulting room, and with a sizable dose of humour, the authors show how to combat anger by substituting empathy and understanding for righteous angry judgments.

## Preventing and Managing Workplace Bullying and Harassment: A Risk Management Approach

Dr Moira Jenkins

aboto: your human resources partner

Preventing and managing workplace bullying, including sexual harassment, is not just a 'feel good' exercise, or something organisations should only do when they are faced with a complaint. It is part of core business. Employers and managers have a duty of care as part of occupational health and safety laws to prevent hazards that might contribute to workplace injuries. This book shows you how to meet these responsibilities using practical, sensible strategies.

## Distressed or Deliberately Defiant? Managing challenging student behaviour due to trauma and disorganised attachment

Dr Judith Howard

QUT

It is not unusual for educators today, whether in the early childhood, primary or secondary sectors, to be confronted with severely challenging student behaviour — students who fly into unexplained violent and oppositional outbursts with little warning; who respond poorly to tried-and-true behaviour management processes.

This book explains the basis for such behaviour as the neurological, physiological and behavioural outcomes of "disorganised attachment" due to prolonged exposure to a traumatic home life and provides practical advice to educators on ways that schools can effectively manage these students.

## Building Resilience at Work

Kathryn McEwen

Psychology at Work

Our resilience, or capacity to bounce back and even thrive in pressured times, is critical in workplaces today. With higher workloads, declining resources and frequent change, together with the hectic pace of personal lives, resilience is almost a key to survival. Based on sound psychological theory, *Building Resilience at Work* is a practical and easy-to-read book providing a proven path to self-help in developing personal resilience.

## What Teenage Girls Don't Tell Their Parents

Michelle Mitchell

Youth Excel

As a parent you know that your "child" is not just another teenager, struggling to grow up. She is your daughter. That in itself makes her the most unique and important teenager in the world. But when your sweet little girl suddenly stops talking, won't do anything you tell her to do, and starts dressing like she stepped out of a celebrity magazine, you start wondering what went wrong. Michelle Mitchell has spent the last 10 years day-in, day-out, listening and talking with teenage girls about their lives, loves, hates and hopes. In this book she reveals that it's what your daughter isn't telling you rather than what she does tell you that matters the most.

- ISBN 9781921513770
- PUB Date April 2011
- RRP \$24.95
- Pages 192

## Integrative Assessment in Clinical Psychology

Edited by Andrew James Lewis, Emma Gould, Cherine Habib, Ross King

Deakin University

This book demonstrates an integrated model of clinical psychology practice where disorders are understood as the outcome of multiple interacting factors across different levels of analysis: biological, psychological and psycho-social. Using real-life case studies with expert analysis and interpretation by leading clinical psychologists and educators, the editors show how the planning of intervention needs to be informed by the available evidence.

- ISBN 9781921513589
- PUB Date December 2010
- RRP \$54.95
- Pages 304

## Grave Concerns: Locating and Unearthing Human Bodies

Dr Kathryn Powell

Anthropology Forensic Research

Finding hidden buried bodies is vital for both a successful legal prosecution as well as the emotional closure required for family and friends of the victim. This unique text provides a compact reference for those who find themselves called upon to search for missing persons who have met a tragic fate. Other readers will find a greater understanding of the science and culture that lies behind clandestine graves, so often a key component of both real life and fiction.

- ISBN 9781921513701

- RRP \$49.95
- Pages 186

## Personality and Individual Differences: Current Directions

Edited by Richard Hicks

Bond University

Interest and research in personality and individual differences, in why people behave the way they do and the implications for life and living, remain unabated around the world. Similarities and differences underpin many implicit and espoused theories of behaviour and of personal and professional practice, informing the decisions on what we will do and when. This book demonstrates an emphasis on theoretical models and on clinical, forensic, organisational, cross-ideological and cross-cultural research.

- ISBN 9781921513664
- PUB Date October 2010
- RRP \$59.95
- Pages 356

## Perspectives on Teaching Singing: Australian Vocal Pedagogues Sing Their Stories

Edited by Dr Scott Harrison

Griffith University

This volume draws together leading researchers and practitioners in voice pedagogy in Australia. The collection is designed to be an ongoing resource for singing teachers, and the publication is aligned with the Australian National Association of Teachers of Singing. The book serves as a snapshot of work in the field, and encompasses voice science, studio pedagogy, regional Australia, and the role of the performer-teacher. It transcends genre boundaries and includes chapters on opera, music theatre, choral music, jazz, worship singing and cabaret.

- ISBN 9781921513732

- RRP \$54.95
- Pages 332

## Crime, Culture & Violence: Understanding How Masculinity and Identity Shapes Offending

Dr Katie Seidler

From prison interviews with violent offenders and a wealth of experience and research, an Australian psychologist explores the complex interaction between crime and culture. Fifteen convicted adult male violent offenders explain their understanding, motivations and rationalisations for their actions in relation to values. This nuanced understanding adds significantly to criminological theory, as well as providing suggestions for better policing, offender management, and rehabilitation.

## Assessing Mental Health Across Cultures

Lena Andary, Yvonne Stolk and Steven Klimidis  
Victorian Department of Human Services and University of Melbourne

We live in a multicultural society, yet how well do we understand the differences that exist across cultures and how they may impact on mental health and mental health assessment? This book provides a framework for mental health professionals to obtain an in-depth understanding of a client whose cultural background is different from their own. Through theoretical discussion and case examples, it challenges the foundations and assumptions of Western models of mental health assessment, most notably the DSM.

- PUB Date April 2010
- RRP \$24.95
- Pages 132

## Bully Blocking at Work: A Self-Help Guide for Employees and Managers

Evelyn M. Field

Private practising psychologist, Melbourne

No one goes to work to be humiliated, abused, ostracised, or assaulted. Yet this is the reality of a working day for more than one in six workers. Most workplaces currently leave the victims of bullying to sink or swim, and the bullies to remain professionally incompetent. This book reveals the evil nature of workplace bullying, its destructive impact on targets, bullies or onlookers — and provides advice for coping and confronting bullying, from both a personal and organisational perspective.

- ISBN 9781921513442
- PUB Date March 2010
- RRP \$29.95
- Pages 230

## Cognition and Language: Perspectives from New Zealand

Edited by Claire M. Fletcher-Flinn and G.M. Haberman

University of Auckland and Massey University

The last two decades have seen an upsurge of cognitive research in the Australasian region. This volume marks the first comprehensive collection of theoretically significant outcomes of cognitive science projects in New Zealand research centres and integrates studies in the technical field of perception, the interfaces between cognition and language (psycholinguistics, psychology of communication), and cognitive-developmental studies.

## Confidentiality for Mental Health Professionals: A Guide to Ethical and Legal Principles

Annegret Kämpf, Bernadette McSherry,  
James Ogloff, and Alan Rothschild

Monash University

Those who work in the mental health sector will sometimes need to consider whether they are ethically or legally obliged to disclose certain personal information revealed by their clients and patients to third parties. This book focuses on the actual decision-making process of disclosing confidential information to allow mental health professionals to find a solution that is ethically and legally sound, and able to be recognised as such by external authorities.

## Crossfire! How to Survive Giving Expert Evidence as a Psychologist

Bruce Stevens

Southern Cross College

Even an experienced psychologist can find a day in court frightening. This book is written in plain language by an experienced forensic psychologist to help the reader acquire the skills to feel confident and effective in presenting expert evidence. The format of the book also reflects a psychologist's professional supervision experience. The reader, listens in on supervision sessions with young psychologists "Jason" and "Mary" as they battle to learn from their own court experiences. The book also includes structured exercises to practice with peers.

## Deadly Healthcare

James Dunbar, Prasuna Reddy and Stephen May

The story of Australia's own "Dr Death", Jayant Patel, is symptomatic of a challenge for all modern overburdened healthcare systems. In this absorbing book, the authors have ploughed through the mass of public inquiry data, interviewing key figures to reveal in gripping detail how it happened, who was to blame, and how it can be avoided. This is a story for all who are a part of a modern complex healthcare network, from hospital administrators to doctors, nurses, ancillary staff and patients.

## DIRT [Danger Ideation Reduction Therapy] for Obsessive Compulsive Checkers: A Comprehensive Guide to

Lisa D. Vaccaro, Mairwen K. Jones, Ross G. Menzies, and Tamsen St Clare

University of Sydney

*DIRT for Checkers* is a comprehensive treatment package that has been specifically designed to reduce expectancies of danger or threat in those with obsessive compulsive disorder (OCD) with predominant checking concerns. All information presented is designed to reduce the expectation that harmful events such as the fear of fire, damage, theft, harm to others and other physical losses will follow any failure to check. The treatment includes attentional focusing, cognitive restructuring, double-checking experiments, corrective information, filmed interviews, probability of catastrophe task.

## DIRT [Danger Ideation Reduction Therapy] for Obsessive Compulsive Washers: A Comprehensive Guide to

Tamsen St Clare, Ross G. Menzies, Mairwen K. Jones

Sydney West Health Service and University of Sydney

For clinicians and therapists, this unique evidence-based treatment program is designed to reduce expectancies of danger or threat in obsessive-compulsive disordered washers. The DIRT program is based on the rationale that the therapist should provide as much factual information as possible to decrease the expectancy of illness or disease and thus reduce the high dropout rate seen in conventional OCD exposure and response prevention programs. The book includes a resource CD with patient handouts and a DVD of interviews.

## Engagement & Change: Exploring Management, Economic and Finance Implications of a Globalising Environment

Edited by Parikshit K. Basu, Grant O'Neill and Antonio Travaglione

Charles Sturt University and University of Sydney

The phenomenon of globalisation continues to exert a powerful and uneven effect upon the business, governments and societies of the world. Yet its very conceptualisation as espoused in the research literature remains unclear; its effects hotly debated. This book examines key issues facing business in countries including Australia, China, Hong Kong, India, Japan, Indonesia, New Zealand, Philippines, Singapore, Taiwan, Thailand across the major discipline areas of management, economics, finance, accounting and marketing.

## Happy Ever After? A Practical Guide to Relationship Counselling for Clinical Psychologists

Bruce Stevens and Malise Arnstein

University of Canberra and Private Practice

Much relationship counselling today is conducted by generalist psychologists, social workers, and counsellors. Yet there is a strong case for a greater role for clinical psychologists. Accurate assessment during couples therapy is essential, the dynamics between people are complex, and the process is potentially very demanding of clinical skills. This book provides for both students and practitioners an integrated approach to relationship counselling, drawing on the best evidence-based treatments.

## In the Wilds of Climate Law

Edited by Rosemary Lyster

Sydney Law School

As the challenge of climate change begins to impact upon all aspects of everyday life, the need for a wider approach to its legal implications is never more urgent. This unique text from some of the country's top legal academics as well as Stanford University's Professor Armin Rosencranz, illustrates with disturbing clarity how legal policy, litigation, investment, corporations law, labour law, property law, international law, and WTO law all intersect with the environmental legal framework when considering the impacts of climate change.

## Infants of Parents with Mental Illness: Developmental, Clinical, Cultural, and Personal Perspectives

Edited by Anne Sved Williams and Vicki Cowling

Child, Youth and Women's Health Adelaide and Hunter New England Area Health

This book examines how to achieve improved outcomes for infants growing up in situations of risk due to parents' mental health and other related psychosocial circumstances that may impair parental functioning such as migration, substance abuse, and infant hospitalisation. The authors examine the effects of adverse life circumstances on infant and family and, in most cases, also describe assessments and interventions. Several chapters have been written by people personally affected by mental illness, or mental illness of a family member.

## Innovations and Advances in Cognitive Behaviour Therapy

Edited by Danielle Einstein

University of Sydney

Explores cutting edge developments in the application of cognitive behaviour therapy across the full spectrum of psychopathology. With an emphasis on new variations in treatment procedures, flexible modes of delivery and the latest directions in treatment modality, including mindfulness and dialectical behaviour therapy. Essential reading for clinicians wishing to update their skills from quality clinical research, this book seamlessly combines a strong theoretical basis with practical applicability. Students will also benefit greatly from learning about the latest advances.

## Integrated Family Intervention for Child Conduct Problems: A behaviour-attachment-systems intervention for parents

Mark Dadds and David Hawes

University of New South Wales

Targeted at therapists working with children aged 2–8 with behaviour problems such as aggression, rule breaking, tantrums, and fighting, this book offers an evidence-based 9-session treatment program for conduct problems including client handouts, based on extensive clinical experience. It can be used for individual or group treatment. The program challenges some current parent training approaches by replacing tokens and other artificial rewards with a focus on love, intimacy and acceptance.

**Music Autoethnographies: Making Autoethnography Sing/Making Music Personal**

Edited by Brydie-Leigh Bartleet and Carolyn Ellis

Queensland Conservatorium Griffith University and University of South Florida

Autoethnography is an autobiographical genre that connects the personal to the cultural, social, and political. The synergies between music and autoethnography are promising, ready to be fully realised. For the first time, this edited volume explores these synergies by presenting work in which the relationship between these two areas is explored through the eyes, ears, emotions, and stories of music and autoethnography practitioners.

## The Charismatic Personality

Dr Len Oakes

The idea that a single person can change the course of nations, peoples, and movements through the force of their own personality is something many may find fascinating and more than a little scary. In his latest book psychologist Len Oakes draws on a range of disciplines including theology, history, sociology and psychoanalysis to explore a personality so different from the general population that it is used by groups to solve problems that reason and tradition have failed to answer.

## The Fitzgerald Legacy: Reforming Public Life in Australia and Beyond

Edited by Colleen Lewis, Janet Ransley, and Ross Homel

Monash University, Griffith University

The Queensland Government Commission of Inquiry into Possible Illegal Activities and Associated Police Misconduct, commonly referred to as the Fitzgerald Inquiry, lasted for two years. Its findings and recommendations, tabled in Parliament in May 1989, continue to have a significant effect on many aspects of public life in Queensland and beyond. This edited collection recalls the events that led up to the Fitzgerald Inquiry and examines the extraordinary influence the 'watershed' inquiry has had on police and public sector reform at the state, national and international levels.

## The Science of Management: Fighting Fads and Fallacies with Evidence-Based Practices

Simon Moss & Ronald Francis

Monash University

What are the assumptions and beliefs behind the many management decisions made everyday in companies around the world? Are they based on real evidence or do they simply follow the latest management fad, personal opinion, or anecdotal observation? The authors have collated and analysed almost 16,000 scientific research articles in the fields of psychology and management to uncover significant challenges to many common management assumptions.

## What is this thing called leadership? Prominent Australians tell their stories

Neil C. Cranston and Lisa Catherine Ehrlich

The University of Queensland and Queensland University of Technology

It is often said that we need better leadership in business, schools, churches, the community, and politics. But what is leadership? This book lets the voices of those acknowledged as leaders do the talking. These are people who live, breath and practise leadership — they make it happen. Each of the ten leaders who speak in this book has demonstrated outstanding success in their field, such that their story is rich and informative, adding both critical and creative insights for those who seek to understand the leadership phenomenon better.
